Description: We know through our experience that losing control to gain control does not work. No

two people can totally agree on everything every time. It is unrealistic to even think that's possible. ACT will provide you with some very effective techniques to assist you in dealing with conflict. ACT will also provide you with techniques for taking control of yourself (you can not control others). We operate our program under various basic principles: Battering is a CRIME. Violence is a choice. Violence is a learned behavior. The abuser CAN control his/her behavior. You may have already experienced some verbal altercations with your partner or may have already taken part in an all-out "screaming match".

The methods provided by ACT "Abuse Ceases Today" program will work effectively for a more harmonious relationship.

Without the ability to read, your place in the competition is near the bottom. One point this program makes perfectly clear - It is never too late to learn to read. If you have been looking for a rewarding experience you have a choice. Either you can learn to read or, just as important,

you can help someone learn to read. Provided in conjunction with Literacy Volunteers of America.
